What is the token for Gravy? *

Gravy — a fund token that can be exchanged for tokens of any project on the fund's DAX exchange

*** do not invest in projects directly bypassing the fund, the mechanisms of the autonomous DAX exchange and IDO Gravy reliably protect your investments, even when the project is closed, you can always exchange tokens back for Gravy !!!**

Что можно делать с Gravy?

The investor becomes a shareholder of projects for GRAVY on the autonomous DAX exchange ZHCash.org (section Gravyplace) tokens of any fund project, which in turn are a digital requirement

How are they financed?

The development and management of project financing takes place on the basis of interaction with the fund and the use of blockchain technologies. This became the basis for the creation of the internal stable token of the fund - Gravy, which is the gas for the decentralized DAX exchange of the fund and an investment protection mechanism for the investor

Fund Portfolio Process

For each successful fund project, a unique token is created, which is the right to claim or a digital twin of the shares of a startup, project or joint-stock company.

1

You choose projects

You yourself will choose whether to become a shareholder of one project or several at once, collect the most comfortable investment portfolio for yourself.

2

You can exchange project tokens

If a project has lost its appeal for one reason or another, you can always exchange tokens of one project for tokens of another project on an internal closed exchange.
